"Far and away the best (and most beautiful) maps of the Islands available today." - Honolulu Advertiser"

Bought this for our first visit to the Big Island. We circled the island, hiking here and there and visiting beaches and parks, and this was the ONLY map we needed. Everything is shown here, from the major roads to the minor ones, with enough magnification of the cities to find your way around easily. All of the beaches and state parks are shown as well as museums and historical sites and even some touristy stuff like where the Mauna Loa Macadamia Nut visitor center is located :) Even better: natural features not shown elsewhere, like the dates of the lava flows you're driving over and the elevations of mountains and towns. Recommendation: Get this and the book "Hawaii, the Big Island Trailblazer" and you'll have all you need to have a heckuva good trip!

This map contains a lot of detail about Hawaii Island (the Big Island). I purchased two. One is on the wall in my office & one for use as an island guide. Which came in very handy just a few days ago as a guest & I explored my new island home. They don't call it "Da Big Island" for nothing! Love this

map. On the down side, locals can easily spot that this could use an update. Still it's great for getting to know the various areas, topography & climates on Hawaii Island.

This map was invaluable for our trip to the big island. Google maps didn't work in many places because of poor cell reception. This map got us around and I would buy it again.

Got this as a reminder of where I am from and where I want to eventually move back to. Quality is good.

great for when there's no cell reception. Besides I like to mark up my maps with favorite places!

Excellent map with extensive and accurate details including dates of lava flows around the island. It took us everywhere we wanted to go with not a single discrepancy!

Used it all over the Island of Hawaii. Very accurate and sturdy.

Best map of the Big Island of Hawaii that I've seen.
