## Customer Reviews

This book is great for horn players. Though time consuming, I put all the parts into Finale so I could have separate parts for practice/performance purposes. No rhythm parts included, but just get some guys that can groove and you will be all set.

Great book. The transcriptions are more accurate than the Chicago one (for example) which is full of errors.

Spot-on horn transcriptions! If you play trumpet, trombone or sax, this is a great book to have.
