5-STAR REVIEW FROM DOODY'S REVIEW SERVICE! The audience is surgeons and residents. The authors are some of the best in the field. The book is comprehensive with step-by-step instructions on how to complete a procedure. It is easily divided into subsections that reflect the subspecialization in the field. Reproductive endocrinology and infertility, oncology, and obstetrics all have ample discussions of problems and surgical techniques for treatment. The obstetrics section covers the physiological differences between the pregnant and nonpregnant state and appropriately identifies the surgical challenges. There is a nice inclusion of evidence-based medicine with frequent references to current literature. The authors use cartoon images instead of real-life pictures and the impact is striking. It allows for easier comprehension of the surgical procedure. This was a core textbook during my training, and this edition adds to its legacy. Comprehensive with excellent images, it is a must-have for any surgeon in gynecology. Reviewed by Anthony Shanks, MD (Washington University School of Medicine) on behalf of Doody's Review Service)

Outstanding update to a classic GYN text. A must for any resident or any established GYN looking to update his or her library.

Must have book for OBGYN Residents/Attendings.

Excellent shape

Very good

I have enjoyed various editions of TeLinde's for years. This is an important update. I regard it an important part of my library.

The book is very good BUT i can't find the videos while in the presentation of this book we find (Access high-quality video demonstrations online and see exactly how to perform selected vaginal surgeries) I downloaded the inkling ebook and always i can't find these videos !!Update (18/09/2015) You can see here the response of the technical support (Wolters Kluwer): I was told by the editors that the videos for that book were changed and are not coming out. There is another book that is similar to that one that has the videos. It's called: Te Linde's Atlas of Gynecologic Surgery Is this legal?!!!!
