Synopsis

Part of the ST(P) graded series in mathematics, this book completes the work necessary for the written papers in mathematics at the higher tier of most GCSE syllabuses, and also completes coverage of Level 10 of the National Curriculum. There is a good deal of material for revision and consolidation. The last chapter contains revision exercises covering Levels 7 to 10 for Attainment Targets 2, 3, 4 and 5. There are also exercises of problems, investigations and practical work that are suitable for practising assessment on Attainment Target 1.
