Egyptian Literature Comprising Egyptian Tales et al by Wilson is a very informative book on the dynamics of human mortality, burial, the experience of the soul and the soul departing the body. This book is informative for historians, anthropologists, journalists, theologians and academics of every kind. The author defines many technical Egyptian concepts using simple English.

Many years ago I had obtained a copy of the Egyptian Book Of The Dead. It was lost during while moving. The book was one of the most fascinating pieces of literature ever owned. The current volume adds to this title and gives even more insight into Egyptian beliefs and cultures.

Easy to follow. It is helpful to have at least a modicum of understanding in Egyptian Mythology for it to make sense.

It's okay so far not what I expected

Great book

good

I didnt care for it because it was to hard for the layman to understand.I might be very informative to people that are familier with the subject.
