## Customer Reviews

I also own the books 1000 chairs ,but felt like that covered way too many of the ones I was personally not interested in. This book is fun to flip through read the small tid bits on some of the more pop art area chairs and such.

Ok, so maybe im biased because I really do love Taschen and I really do love chairs... combine these two together and I am a very happy woman :)

A sweet little chair book I bought from the Tate Modern and really enjoyed it. Most of the chairs from known architects... A book for your office table.
