## Customer Reviews

I received the book last night, and placed it on a chair in the family room. My 5th grader picked it up and started to read it. He says, "Dad what does GPA stand for?" Already this book has a great ROI. I am so excited to start to implement some of the strategies and plans described in the book with my older kids. Thanks Aunt Shaun!

This book is full of great ideas for starting early and streamlining the application process.

I thought it is very helpful and full of current information. I am a grandmother and I got it to help to inspire my grandchildren to know how they can best help themselves and be prepared for college.

This book is a must have for all teens and their parents! My oldest is a freshman in high school and we were clueless on how to navigate her schedule for the next few years. We learned so much from

this book! The best part is that my middle schooler and high schooler were both able to read it. We have read parts of it together and now they are setting their own goals for school. There is so much valuable information in this book, it will be a great resource for the years to come.

This is a perfect book for any middle or high school student looking to set her/himself apart to colleges. I recommend this book to any college-bound student. Not only did I enjoy reading it, but my sixth grade daughter did too. This book gives very clear step by step instructions for how to build a resume from a young age.

The book was a very helpful outline for the successful applications to scholarships. I gave a copy to a friend and another to my oldest grandson.

If you have kids and want them to be successful, this book is a must have.
