Customer Reviews

Good! this is for the US release (other release is UK and has different songs) this contains the 2nd version of "Red House" in case you were looking for it. I prefer this version as it was the 1st one I heard (I was looking for this one, Hal Leonard published for both releases). This book is guitar notes, TAB and an audio CD to play along with. I can't review the CD as I haven't used it yet, but the 'play-along-with' title suggests karaoke-type accompaniment.

Great accurate

The book is a great source for students wanting to learn the essential elements of Hendrix. The guitar parts are accurate and the scores are not overly complicated. Much more user friendly to the

aspiring Hendrix Aficionado than the Transcribed Scores versions, which would make a great next step. The CD is definitely a bonus and sounds awesome.

good selection of Hendrix music with tabs. Check other offerings before buying

If you are looking for a great tab book that teaches the authentic licks and riffs of some of Hendrix's greatest hits, then this is for you. Also comes with an accompanying CD to help hone in and fine tune your playing.

Great book, fast delivery, and received as described!

Great

This book is a great tool to learn from the best. A unique style that if mastered would bring many times of enjoyment knowing what you have accomplished. The CD helps break it down for an easier time to learn the intro and timing. We are all not Jimi, but we at least can enjoy playing our favorite music by him.
