Jack C. Estes was the author of Real Estate License Preparation Course for the Uniform

Examinations. Dennis R. Kelley was the author of The McGraw-Hill Handbook of Financial Tables for Real Estate. Charles Freedenberg programs financial applications and has 39 specialized mortgage calculators on his website, www.compareloans.com.

Great tool for today's mortgage rates.

Nothing special.

McGraw-Hill's Interest Amortization Tables, Third Edition^ This handy little book arrived quickly. It is much easier to get an estimate for payments than using a calculator. I keep one at my house and one in my car and one at the office.

These are hard to come by in any stores. It come in handy for those who look at potential properties to buy and sell.

I misplaced the book I had for years and purchased this to replace it. A very concise guide to payments based on percentage rates. I use this reference for any payment plans I have to keep up with long term finances. A great reference book to have.

Great Book

I ordered this book for a friend. It is exactly what he wanted and it gives him all the information he is looking for. When you want to know how much a house payment will be including principal and interest....just pick up this book. It has it all....

Exactly what I wanted.
