Great book

Had to read for school. Not my favorite book but, I am also a finance major.

Great book

Product arrived in excellent condition.

Great

Essential works from significant writers regarding the foundations of contemporary socio-political structures.

Famous Philosophers, Leaders, Politicians, etc... I highly recommended.

There were a lot of markings and highlighting in this book, but it was still usable. Even though it was hard to read sometimes, it was still cheaper than others. I've learned my lesson though; read the description before buying.
