ISBN-13: 978-1591252047

Product Dimensions: 1 x 5 x 7.5 inches

Shipping Weight: 8.8 ounces

Average Customer Review: 3.8 out of 5 stars 29 customer reviews

Best Sellers Rank: #152,209 in Books (See Top 100 in Books) #9 in [Books > Books on CD > Languages > Language Instruction > Spanish](#) #123 in [Books > Books on CD > General](#) #455 in [Books > Textbooks > Humanities > Foreign Languages > Spanish](#)

Customer Reviews

Look ma, no textbooks! The Learn in Your Car series treats you like a child--in the best possible way--starting with one-word phrases ("please," "good-by"), counting exercises, and simple nouns ("bus," "train") designed to imitate a child's learning process. First you hear the words in English, then they are repeated slowly in clear, unaccented pronunciations. The method is extremely effective for those who don't know a thing, or for those who want to brush up by testing themselves when the English words are spoken. The tapes emphasize the building blocks of communicating in a foreign country rather than rote phrases that only apply on the tape and not in real-life exchanges. Level 1 painlessly covers basic verb forms, essential prepositions, near future and past tenses, as well as shopping, hotel reservations, and other travel-related situations. The series includes French, German, Italian, Russian, Japanese, and Spanish in three levels that can be purchased individually or in boxed sets. Each level contains two 90-minute cassettes (or CDs) and an accompanying booklet (not for use behind the wheel) with helpful explanations and scripts for the lessons. --This text refers to the Audible Audio Edition edition.

This Spanish audio set is the best. I love it!! I am learning so much. I took it in college years ago, but

did not do well in it. The CD's are wonderful and easy to learn. Love playing it in the car. Learning more word daily. Thanks for having this available.

vocabulary lists, said in English and Spanish. I guess if you listen to them over and over, it will help your vocabulary, but not a class of any kind

Nice to use while driving.

This is a great way to learn a language.

I have been using this set of 3 discs for about 5 weeks and have now ordered levels 2 & 3. The first disc is real basic stuff that gets you started, the second disc has lists of various types of vocabulary, like common nouns, adjectives, adverbs, verbs, and prepositions, and it is really worth going over these time and time again so as to master both the vocabulary and the pronunciation of these basic word lists. At least once you have got the basic vocabulary down, you have something to build on, so it gets easier. Disc three is more phrase oriented, though it should be born in mind that each lesson is designed to illustrate some kind of grammatical rule. For some reason my disc set came with the wrong book (French instead of Spanish) so I have relied totally on the audio, though I do have a basic Spanish book that I refer to occasionally if I can't properly identify the spelling of a word from what I hear. The only beef I do have is that while some of the phrases are obviously very useful, like "donde esta el banco mas cercano?" (where is the nearest bank?), others are not. You can just imagine landing in a Spanish speaking country and the first thing out of your mouth is asking for the nearest ATM or bathroom, but not all of the pattern sentences in the exercises are as useful. It IS hard work learning Spanish this way, but if you do a lot of driving or can take a CD player with you wherever you are, then it is also incredibly economical with what would probably otherwise be dead time used productively. Being able to communicate in Spanish is an incredibly valuable skill in the workplace these days, and even if you don't use it for that, there are so many Spanish-speaking tourism destinations in the Western hemisphere that learning Spanish while you drive around can only widen your scope. I have already found that after 5 weeks of using this plus the Instant Immersion Spanish discs in my car I can understand lengthy chunks of spoken Spanish, read newspapers and understand 85%, and understand Spanish language posts on the Internet tolerably well. My speech still needs a lot of work, but that is to be expected. So, yes, I do recommend this set of discs, but I would use them in conjunction with something else for variety.

You will still spend a lot less and learn a lot more than you would going to classes or on a course. Spanish will be my fifth language, if you count English as one, so I do know of what I speak.

Love this, easy to use!

I am a novice to the language and am still learning but I do enjoy it.

We had purchased the two cassette tape series years ago and wanted it on CD with the upgrade. And sure enough this is the new and improved edition. Try it, very reasonable price for what you can learn..
