Great Poetry

I bought this book for my ten year old niece who showed me that she could write pretty good poetry. I also bought Ogden Nash's similar book of poems entitled "Food" - both sent her running to her Mom to show her what I had brought for her to look at. Ogden Nash wrote some very clever poems and they brought a lot of joy to me in the 1980s when I got these books, and again recently when I bought a set for her (I bought them separately and gave them as a set).

Buy this book and read it to a young child. You will both enjoy it.

Love it, love it, love it....a definite pass down the family heirloom item

Very satisfactory

Ogden Nash at his finest. What more to say?

As a great lover of Ogden Nash's poetry, I like most everything he has written and this book is no exception. It is delightful and humorous.

Excellent addition to children's library. Will please animal lovers. The book has short verses for every letter of the alphabet. Great for expanding parents and kids vocabulary.
