perfect supplemental material for the budding pianist

I really enjoy the Faber series of piano books, but I am giving this only 4 stars because the songs are not the most recognizable nor challenging to play.

Cover was slightly bent.

We are so excited these new Jazz and Blues books are finally out! We have waited for a long time! One of the things we love about Faber is being able to buy the different music genres in these skill leveled books. They are fabulous! We are very pleased with them. The Jazz and Blues genre is fun! The songs are really easy in this book, and quickly get you used to accidentals. You really cannot beat the price on these little song books. If you love Jazz, you will love this. If you are not so much

into Jazz...you may be after playing through this book!

Love Faber books!

Nice

My kids needed it for lessons and it is really an easy book for them to follow. We liked it

Love!
