# Capturing The City: Photographs From The Streets Of St. Louis, 1900 - 1930

## Synopsis

During the first two decades of the twentieth century, the St. Louis Street Department generated one of the most extensive troves of photographs ever taken of the city. Ostensibly created to document municipal challenges and improvements, the images inadvertently captured richly detailed scenes of everyday life. Largely led by Charles Clement Holt (1866â1925), St. Louisâs photography operation expanded until it produced about six thousand images per year in 1914. Many of these photographs were lost, but a city historian salvaged a collection of three hundred glass plate negatives in the 1950s, which are now in the Missouri Historical Society collections. This small, but superb, group of photographs provides a wealth of information on the visual culture of St. Louis during a period of rapid transformation. *Capturing the City* is the first book to examine these photographs, placing the people and landscapes depicted within the broader context of a swiftly urbanizing and industrializing metropolis. Collected and analyzed here by Joseph Heathcott and Angela Dietz, the compelling images in *Capturing the City* reveal the national trend among cities to use the camera as a documentary tool. Reformers Jacob Riis and Lewis Hine imagined the camera as a truth-telling instrument and used their photographs to mobilize public consciousness. Across the nation, cities used photographers to document slums, workhouses, and crime scenes, as well as municipal improvements like street lighting, pavement, and model housing. In this vein, Holt and his staff showcased both the challenges and the successes of government action in St. Louis. Consistent with their Progressive-era peers, their efforts contributed to the record of ongoing public works while shaping the narrative of urban progress itself.

## Book Information

Hardcover: 304 pages

Publisher: Missouri History Museum Press (June 15, 2016)

Language: English

ISBN-10: 1883982839

ISBN-13: 978-1883982836

Product Dimensions: 9 x 1.1 x 11 inches

## Customer Reviews

Joseph Heathcott is a writer, curator, and educator based in New York City where he teaches at the New School. He is also the author of *Beyond the Ruins: The Meanings of Deindustrialization*.

Angela Dietz is the director of digital initiatives for the Missouri History Museum. She is the author of *Paper Dolls Inspired by the Clothing Collection of the Missouri Historical Society*.

Fabulous book if you are interested in St. Louis and history.

I really like this book. The photos were displayed at the History Museum and I was very glad a book was published with them. I had taken photos but those in book much better.

Enjoying this book, very much. The photographs are packed in, and not stingy on quality.

Outstanding book. I went to a presentation by the authors at the St. Louis county library and bought a copy. Fantastic pictures from the early 1900s. The pictures are full page but you have to study them with a magnifying glass to see all the fine subtle details. Thank you to the authors for publishing this

We recently saw the exhibit of these photos at the MO History Museum and I felt compelled to buy the book; the many photos in the book are large & clear and a real treat.
