Synopsis

From the highlands of North Carolina to the ridges of Virginia and the gorges of West Virginia, This Guide has all you need to plan your outdoor adventure on the New River. Both casual and hardcore anglers will learn of the best places to fish for smallmouth bass. Canoeists will find the most enticing sections to paddle, whether they prefer tranquil sections or white water. Photographers will find endless opportunities in the rhododendron- and sycamore-covered hillsides of the North Carolina New, the 400-foot dolomite cliffs that punctuate the Virginia section, and West Virginia's "Grand Canyon of the East." Detailed maps and photos complement the text to make the beauty and excitement of the New River easily accessible.

The author, Bruce Ingram, is an outdoor writer and lifelong resident of Virginia. He has floated the entire length of the New during his research for The New River Guide. Bruce is the author of more than 1,400 magazine articles and the best-selling James River Guide.

This is one of the most informative books I have ever read about smallmouth bass fishing on the New River. Along with the Nat Geo Blueway map I now know where the best places to fish and access the river.

I've read Bruce Ingram's work before.No bull....just the facts.

Excellent descriptions of the different sections from the confluence of the North and South forks, through the New River Gorge. Good descriptions and advice to smallmouth fisherman though it does not cover other fish species (catfish) as smallmouths seem to be the draw for the author.

Great book, good price

One of the best guide books I have ever read. The information is dead on.

I don't live too far from the New, have fished it many times. Bruce is right on target with book. If you have never been there this book gives you all the info you need for a fun trip. Not only good maps but excellent projected float times from point to point. Also he is a fisherman and you know what kind of pool formation to expect and how to navigate each rapid. Lastly, you won't blunder into danger. The best I've seen. Brown Osborne
