Customer Reviews

Such an informative book. A lot of important information about Slow Cooker has been gathered in this book. I was actually impressed by how much useful information is squeezed in such a short book. Author has described every single thing very clearly with some proper explanations. By reading this book I learned some delicious recipes. Such an excellent book. Highly recommended.

The recipes are easy to read and follow but this is NOT a Keto cookbook. Canned soup, Beans,

Pineapple, bottled Barbeque sauce and salad dressing are all used as ingredients. The carbohydrate counts are VERY high in some of the recipes. I think I will be returning this one.

this book has some recipes that look delicious. I find that the nutritional information must be off in some of the recipes so I am unsure how well this might fit in a keto diet. Other recipes contain items that may be paleo, but not keto (according to my limited keto knowledge). The book will come in handy on busy days this fall :)I have the Kindle version

This is a great cookbook based on the ketogenic diet. It has many great recipes and I tried some of them, I was amazed of how good they tasted. Awesome cookbook!

They are on my meal plan every week since getting this cookbook! Thanks for giving me a great resource to take care of my family!

I have purchased a lot of cookbooks.Better than the first. I use this almost daily!

I've made several recipes, and they've all been a hit. My picky daughters loved the recipes.

Love this book. We have made most of the recipes and they all turn out great.
