Customer Reviews

Game strategy book on Pente.

I've owned this book before. Gave it to a friend. I recently bought the #1 book to loan to beginners. And it's ok for them. This book, #2, is good for the midlevel player. And everyone should be aware that like chess, books can help a lot up to a point. In this game, low middle is as far as you are likely to get unless you have the kind of mind that would make you a very good chess player. Those are the people that excell at Pente. Play the game online to see what I mean. That said, Pente is a lot of fun no matter your playing level. Enjoy!

This isn't really a review, per se, but readers/buyers should be aware that, from the inside copyright page, this work was "Previously published as Pente strategy I and Pente strategy II." Just so you have *some* information on the contents, there are chapters covering: 1) Openings, 2) Middle game, 3) Endgames, 4) Perspective, 5) Illustrated Games, 6) Pente Problems. As for "Reading level: Ages 4-8". Umm... no.
