This Bud's For You: Legal Marijuana: Selecting, Growing & Enjoying Cannabis

Synopsis

This Bud's for You presents Rosenthal's next view on the cutting edge of cannabis trends. It's for people who enjoy marijuana — consuming and growing — including information about the plant, its effects, new trends and products, and the emerging industry. Â It details new varieties commercially available with breeders giving their perspective on the hottest new strains and how classic varieties were crossed to create them. These are strains sold at local dispensaries in the form of bud, edibles, and concentrates. Some stores also sell seeds and clones. Seeds for these strains are available worldwide online. It's also filled with tips and ideas from expert insiders: technical advice from the breeders, ways to judge marijuana and compare strains, and insights on how dispensary buyers make their selections. This Budâ™s for You goes from micro to macro looks at the worldâ™s favorite flower, zooming from large-scale commercial cultivation to the vital essences of trichome resin glands. Along the way, it covers product trends and emerging science, from the role of terpenes in creating marijuanaâ™s high to the evolution of scientific extraction methods and the revival of artisanal hash-making techniques.

Customer Reviews

This Bud's for You is cannabis cultivator extraordinaire Ed Rosenthal's latest take on cutting edge cannabis trends, science and industry growth. This beautiful book is for the people who enjoy consuming and growing cannabis and want to be more immersed in this plant and in this ever-growing industry. It is also filled with tips and ticks from expert insiders like technical advice from breeders, ways to judge and compare strains and how to make the best cannabis selections. -

Alex Bradley, Culture Magazin

Wow, Ed Rosenthal's new book is absolutely spectacular! Photos soclear and detailed you can almost taste Frenchy Cannoli's gooey TempleBalls & smell every nuance of their sugary goodness.- Cannabis TV

I think this is Ed Rosenthal's best book to this day!... there is plenty of useful [current] information that they put a lot of work into. Secondly, hands down best photos out of any cannabis book I've ever seen. The macro photos were another level of quality and obviously their team had a fun time putting this book together.. Highly recommended

amazing resource

anything from Ed is very good

5 stars .
