Customer Reviews

pocket guide to terrorism Awareness

I found the Green Beret Pocket Guide to Terrorism Awareness and Personal Security book by Brain Morris to be very informative, and the wording makes it easy to understand what you may need to know in a life or death situation. Though intended for people who travel abroad, with our porous boards here in the United States, and the questionable characters walking across it daily, this book should be a must read for those who are willing to stick up for themselves in an emergency.

a good book.

Great information rolled in to a concise book.

Great common sense guide for any traveler.

Excellent information and well written. This soldier knows some stuff! Buy it, you will learn a lot.

Excellent prep book for travel outside the US.

I found this book to be outstanding. It is useful for anyone and everyone who travels. It is also super for everyone to be more aware in their own local environment. You never know when bad people intend to do harm and you just happen to be their target. But the knowledge in this book, makes you alert and aware, giving you more confidence and making you such a hard target, most bad guys will steer clear of you.

It is surprising, even in today's post-9/11 world, how soon people forget about what lurks in the world around them. Morris shows her in this quick, useful guide how to be aware of your surroundings and take simple steps and learn simple methods so you won't be a target or survive if you are. Those who already take "being prepared" or like to make sure they are not being taken advantage of, will find a lot of familiar material in this book. This is a good refresher for them, but for those looking for a good place to start, this book is worth the effort to open and start reading. Don't be a victim and don't think someone will always be there to save you. See also *When All Hell Breaks Loose: Stuff You Need To Survive When Disaster Strikes*, *SAS Survival Guide* and *The Prepper's Blueprint: The Step-By-Step Guide To Help You Through Any Disaster*.
