Customer Reviews

I have used it a lot and have found it to be accurate and reliable.

We found this book to be an excellent resource. The instructions and directions were clear. It is a good resource for novice hikers, as well as more experienced folks.

Had done about 25% of the hikes before the book. Now have done 75% of the hikes in the book.

This book has been an invaluable resource for me and my husband. We really appreciate D'Antonio's trail descriptions and his clear, concise directions to each trailhead. One of our favorite parts of the book is the section in the back of the book where D'Antonio ranks the hikes based on

what they're good for (best hike for wildflowers, best hikes for fall colors, best overnight hikes, etc.). That section has been really helpful to us because it allows us to plan our backpacking trips around our specific interests.

I really wanted to like this book. It's nicely done with lots of color. But \$22.50 is just too much, considering that most of the hikes near Santa Fe are also in "Best Easy Day Hikes Santa Fe, 2nd" for \$9.95. In addition, although not the author's fault, a great many of the hikes are out-and-backs, not loops, so you have to retrace your steps. In addition, they include some pretty difficult terrain: A lot of us don't have 6-10 hours, or else the stamina, to spend on a near-vertical, one-way hike. Finally, most of these are simply listed on the Carson and Santa Fe Natl. Forest maps...I didn't learn of many "new" hikes near Taos or Santa Fe that I didn't already know.
