The cartography style is a little outdated but this is dense with information - get out your magnifying glass. The mapped area includes part of the southern and western suburbs as well as a slice of Vancouver across the river. Does the job.

Saved me many times on my recent trip to Portland! And as advised by other reviewers, bring a magnifier, print can be very tiny (at least if you live in bifocals like me). Not knowing my way around Portland when I rented a car to find lots of locations from the "Grimm" TV series, I needed the "big picture", not just small street segments on Mapquest or GPS, to navigate to all the locations and attractions I was visiting throughout the city...and needed to figure out how to re-orient myself when I kept ending up crossing one of their many bridges unintentionally!

As far as I can tell, Rand McNally makes the best maps in the world. I don't buy any others.

Exactly what I needed.

Informative

Was looking for more details of downtown Portland.

A complete road map of the entire Portland area. Just what I wanted.

Has exactly what I needed for my sole adventure. I will have a GPS, but it is nice to have a good map to see the distances between areas I want to visit.
