Customer Reviews

I got this with the ds "my spanish coach" and this is good for hearing the words in sentences and it is very easy to follow. This really helps the words stick but It is not to helpfull to me on its own, mostly becouse Im a visual learner. I would recomed this as a suplement to another more complex program. it is the easiest listen and learn cd I have perchesed and after a month the only cd i still use.

My six year old and I listened to this every day in the car and he picked up a little bit. It was helpful that I could assist him with pronunciation on some if it.

Disappointing. Background music had beat only and just said the words. No singing or musical value.

My kids love this.

Noce cd but the book is not very exciting... black and white, not many pictures. My 4 yr old was showing an interest in Spanish so I bought this for her... this is really for a kid who can read independently.

I did not receive the CD, and this is not the correct cover for the volume 1. I am still interested in receiving the volume 1 CD but I am unable to locate in on line. I would like to play it while commuting between work and home. I find this to be an excellent opportunity to learn while in rush hour traffic.Odell Green

It is unfortunate that this cassette tape is listed as "Spanish: All ages learn English," when in fact it should be "...All ages learn Spanish." And *all* ages DO learn. My children, ages 4, 6, and 8, were all able to hold an easy (1st grade level) conversation in Spanish after just about a 1 1/2 weeks of listening to this tape on the way to swimming lessons and back. I'm taking Spanish in college now, and still use this tape as a refresher. It is very good.

I thought this was going to be too advanced for my 2 year old. The music is catchy for children and so they really get into it. My daughter started listening to this tape and now is interjects Spanish words in her conversations (food, colors, numbers etc). Highly recommend it for all ages.
