Look, Look!

Synopsis

Look, look! Children run, fish swim, stars shine . . . all for baby's eyes to see. This sturdy board book, full of high-contrast black-and-white cut-paper art perfect for staring at, is just the thing for the eyes of the youngest babies. A few words in curving red type on each spread describe the scenes -- a car races, a cat stretches, flowers bloom-- and extend the book's age appeal so that it will be fascinating to older babies, too. Striking and stylish, Look Look! is the ideal first board book for babies just beginning to look and learn. Peter Linenthal is an illustrator who has taught art in elementary schools for twenty years.

Peter Linenthal is an artist and photographer. He is the illustrator of numerous books for children and lives in San Francisco, California.

This has been our baby's favorite book from the very beginning. He loves this book. You open it up and he'll stop crying and start checking out the book. The words are very basic (like two words basic), so it's more for a baby who is looking and not for one who needs a story or a lot of words. We started reading it around 2 or 3 months.

My son loves this and has since the day I showed it to him. Even my toddler loves it. We've gotten a lot of use out of it and I anticipate we will get a ton more in the coming months.

Just received this today. My 6 week old loves it!!! She looks at both sides of the picture and then I can get to move her head and follow the book to practice neck strength. I'll be buying this for pregnant friends now too!!

Durable book that gives newborn something to look at. Newborns love the black and white contrast with the red added in. The book is mostly all pictures with one or two words on each page.

During tummy time with my 6 week old this is nice to prop up nearby him! He's too young for everything so this is great since it's something even he can enjoy. When I move the book his eyes follow it so I know he's engaged. And I can see him scanning the pictures

My baby has seemed to enjoy this book since he was 3 weeks old. It would easily distract him from having melt downs, this is genius!

A friend recommended this book. Great for infants and it's a great price. Can't beat it! Good idea for a baby shower gift.

This has changed my daughter's views on tummy time. She loves checking out the high contrasted pictures of this book!
