Customer Reviews

I am a regular at the MSN gaming zone (usually playing in rated room 1 or kings a competitive room) and before buying this book I had around a 1550-1600 rating which is not good at all. So I thought I would try reading a book and see what it would do to my game. A MAJOR improvement occurred in my game after reading this book. My rating is now hundreds of points higher than before. I have beaten some of the best players and my recent statistics are 16 wins and 3 losses. Where would I be without this book? I don't think my rating would have moved a notch. This is clear to understand and I am buying it for my checker buddies. The board it includes with the 32 numbers is not only great for recording your games you play...but it's great for mail play! I got 100 times more

out of this book than what I payed. Thank you Mr.Pike...you really improved my game.
