MCAT Verbal Practice: 108 Passages For The New CARS Section (More MCAT Practice)

Synopsis

Need lots and LOTS of practice for the MCAT CARS section? This book has over one hundred practice passages arranged in a dozen timed practice verbal sections to help you hone your critical analysis and reasoning skills. This book is meant for a student who has already gotten a start with different reading strategies and now needs to hone their skills with lots of practice. If you're looking to get an introduction to the CARS section and strategies to master it, pick up Next Step's MCAT CARS: Strategy and Practice book in addition to this book. Those who purchase a Next Step book also get free access to our online MCAT diagnostic test.

ISBN-10: 1944935002

ISBN-13: 978-1944935009

Product Dimensions: 8.5 x 1.2 x 11 inches

Shipping Weight: 3.2 pounds (View shipping rates and policies)

Average Customer Review: 3.7 out of 5 stars 31 customer reviews

Best Sellers Rank: #91,684 in Books (See Top 100 in Books) #22 in Books > Education & Teaching > Higher & Continuing Education > Test Preparation > Graduate School > MCAT #992 in Books > Textbooks > Test Prep & Study Guides #2028 in Books > Education & Teaching > Test Preparation

Customer Reviews

Bryan Schnedeker is Next Step Test Prep's Vice President for Content. He manages all of our MCAT instructors nationally and counsels hundreds of MCAT students when they begin our tutoring process. He has over a decade of MCAT teaching and tutoring experience (starting at one of the big prep course companies before joining our team). He has attended both medical school and law school and has scored a 525 on the MCAT. Bryan has worked with thousands of MCAT students over the years and specializes in helping students looking to achieve elite scores.

I have mixed feeling about this book. Overall I think it's very worth the price BUT it definitely has some disadvantages. The most important advantage to me is that this book has complex, dense

passages. I feel that they are a bit harder than the passages I ran into in the AAMC practice test. If you can learn to soak up all the information in these passages I think this book is worth well above the asking price. The answers are sometimes a little vague though as others have stated in the other reviews. Additionally, one could argue the selected answer is incorrect for many of the questions. Still, I think these passages help you develop a certain forward-looking perspective while reading that allows you to form implications. It also teaches you to keep outside information/biases from affecting your answer choice and how to use the given information appropriately WITHOUT making overreaching statements/answer choices. I have not tried any other companies CARS yet but will update this in the future when I do.

This book is decent, and provides a lot of extra CARS passages. However, I wouldn't make this my first book; some of the questions in this book do not seem similar to the real AAMC-type MCAT questions. The bigger test prep companies provide much better CARS passages that actually resemble the real AAMC test. However, once you run out of passages to do, this book does indeed provide the necessary practice. It's a pretty good book, but make sure you've completed other books first before you switch to NextStep.

great book!! i am already using it!! great seller!!!!

Not like the real MCAT. Good practice, but question style is different. Practice with AAMC.

It's a mixed bag. Some are AAMC like, and some are just outright different from the style of AAMC passages and questions. Honestly this book should only be used as "burn through" material and save EK101 and TPRH verbal passages and AAMC closer to your test date.

A little bit dry but effective. I will see if it helps once I have the score back.

Avoid using within 2 months of test day. Passages are really dense and generally not AAMC-esque. EK and TPR are much better.

great practice book
