The Emergency Survival Manual: 294 Life-Saving Skills

Synopsis

Assess. Respond. Protect. From break-ins to basement flooding to broken bones, in the Emergency Survival Manual youâ™ll find everything you need to be prepared for any emergency that comes your way. Whoâ™s better suited to write a book about handling emergencies than an Emergency and Risk Management Consultant and the CEO of Mutual Aid Response Services (MARS). Joseph Pred is the go-to-guy for assessing and handling emergencies. When you combine his knowledge with that of the experts at Outdoor Life magazine what do you get? An epic book filled with lifesaving skills. This book also covers what to do before the first responders arriveâ€”or if they never do. Basic Tools & Skills: Everything you need to know to assess and start handling an emergency. From stocking a first aid kit and treating burns, cuts and broken bones, to protecting yourself when using pepper spray and performing CPR. Home and Family Safety: Protect your house and keep you and your family safe. Learn how to deal with a lost child, handle house fires, public transit scares, car accidents, and help a sick or hurt pet. Community Safety: All the ways to help your neighbors and keep your community safe. From what to do if you see a house being broken into and dealing with school tragedies, to coping with a major natural disaster and handling a toxic spill â€”and everything in between. When disaster strikes you want to be ready, and you can be with the Emergency Survival Manual. With high-quality design, intricate detail, and a durable flexicoverâ€”this manual is the perfect gift!

Customer Reviews

Great practical advise for living in an uncertain world. This book would benefit anyone and should be part of every homes library. Very readable in short sections with a easy on the eye layout. While some information will be for areas that don't involve everyone (not everyone lives in Tornado alley, or where there are hurricanes) the weather these days is changing and you never know. My state had a verified tornado appear in a residential area - a small tornado that did only structure damage - but the Pacific Northwest isn't known for tornadoes. The greater part of the book involves preparing for survival in an emergency - no power, no city services, etc and that applies to everyone! Highly recommended. Don't let it stress you out - just prepare as much as you can and you'll be able to take care of yourself in a disaster, and maybe even help others.

Great handbook for my 11 yr. old, he loves it.

Good overview of certain emergency situations, but needs some drill downs on certain aspects. It's always easy to say wait for emergency response type units, but what do you do if they don't arrive

Bought several of these manuals and enjoy reading them. There is quite a bit of good info in these manuals and at the price they are being offered for at this time how can you not pick up a couple for your kindle fire or computer/tablet.

I have about 15 books like this and this one is in the top 3,...easy to read and easy to understand.

Just what I was looking for. Full of information. A good companion to the other books by Outdoor Life.

Great addition to the library.

I simply cannot recommend this book enough. I have read at least 20 books on survival, bugging

out/in, and basically any book about teaching me what to do if SHTF. This is by far, the most useful and versatile book. If I could only take one of these with me, this would be the one. Anything you can think of is in this book. This book has everything from how to treat certain wounds, to the tools you should have, to how to get out of a skid, even tells you things you can do to help your community. This book is also littered with pictures and charts and it makes reading this not so boring. Overall I really enjoyed this book and would recommend to anyone, but especially to those who are interested in prepping. Thank you for taking the time to read my review. Please remember to vote below my review if it was helpful or not helpful. If you choose to vote my review unhelpful, please leave me a brief comment so I can improve my future reviews as they are important to fellow buyers like myself.
